USER EXPERIENCE, BACHELOR OF SCIENCE (5017)

Program Coordinator

Kristina E. Arnold, kristina.arnold@wku.edu, (270) 745-3944

In our modern tech-driven world, the significance of User Experience (UX) cannot be emphasized enough. It encompasses the integration of human insights into the process of designing, researching, and creating technological interfaces. UX delves into various disciplines including design, human-computer interaction, learning, cognitive sciences, perception, product design, user-centered design, and usability. UX inherently bridges multiple fields, blending the strengths of Art & Design with Computer Science to offer a comprehensive UX education. Through this interdisciplinary approach, students gain expertise not only in creating visually appealing designs but also in developing practical and user-centric technological solutions.

A baccalaureate degree requires a minimum of 120 unduplicated semester hours. More information can be found at www.wku.edu/registrar/degree_certification.php. (https://www.wku.edu/registrar/degree_certification.php)

Students who began WKU in the Fall 2014 and thereafter should review the Colonnade requirements located at: https://www.wku.edu/ colonnade/colonnaderequirements.php. (https://www.wku.edu/ colonnade/colonnaderequirements.php)
